---

## Summary

Full-Stack Developer with solid experience in web development using React, Node.js, Ruby on Rails, and PostgreSQL. I work across both frontend and backend, with a strong focus on performance, accessibility, and scalability. Skilled in functional testing, collaborative code reviews on GitHub, and test automation with RSpec. I have contributed to projects as a freelancer, volunteer, and currently play an active role in the growth and maintenance of production-level products.

---

## Professional Journey

### **Togyro Group Victory – React Developer free-lancer.**

*Start-up specialized in Web development.*
