### Professional Summary

Full Stack Developer with over 4 years of hands-on experience in real-world projects, including freelance client work, a proprietary SaaS product, and production systems. Strong background in building scalable web applications using React, Node.js, Ruby on Rails, PostgreSQL, and TypeScript, with a focus on clean architecture, performance, code quality, and user experience.

### Experience

Full Stack Developer – Freelance (Feb/2022 – Present): development of complete web applications for real clients, including admin systems, landing pages, and e-commerce platforms, working with REST APIs, authentication, SEO best practices, and automated testing.

Full Stack Developer / Founder – Togyro Group Victory (Feb/2023 – Present): creation and continuous evolution of a proprietary SaaS platform with multi-tenant architecture, subscription plans, access control, administrative dashboards, and usage metrics.

Systems Developer – Tech Inova Simples (Feb/2024 – Present): development and maintenance of Ruby on Rails applications, business rules implementation, dashboards, and PostgreSQL integrations.

### Technical Skills

Front-end: React, Next.js, Angular, TypeScript, JavaScript, HTML5, CSS3, TailwindCSS, accessibility (WCAG).

Back-end: Node.js, Ruby on Rails, Python, Java, RESTful APIs, authentication, authorization.

Databases: PostgreSQL, relational modeling, query optimization.

### Education

Associate Degree in Systems Analysis and Development – Faculdade Descomplica (2022 – 2024).

### Languages

Portuguese (Native) • English (Technical proficiency).
